**INTROSPECTION – SELF EXAMINATION**

## **Sponsoring**

Good people, brothers and sisters, friends of the New Revelations. There is enough material to provide the bulletin for at least ten years, with a mutual monthly Exchange over the NR. The bulletin can only be published when it is supported by voluntary sponsorship. The Dutch and German translations are both completely voluntary and fortunately, there are no costs involved!

It is not certain whether the English translator can be further funded. As it looks right now – unfortunately- the bulletin can therefore not appear in June. If necessary, - for the month of July - the translator will be paid - by myself -. Costs up to 10 pages: 50 €, 15 pages: 75 € and above: 100 €. This can occasionally. [Existing English text about the new revelations not included!]

I am very curious about the next development. It goes without saying that a fourth translation [Portuguese] no longer qualifies. G.

## **Contacts and reactions**

We received friendly and useful responses to Jakob-Lorber-Bulletin Nr. 6.

Comments will be published to the incoming order, again:

Gerard

The send copy [preferably between the 15th and 20th of a month] is processed in the next issue. Incoming copy outside the specified dates is then postponed and is naturally included in the subsequent publication.

L.S.

By Googling the name Matheal, I came across your site. It interested me to continue reading as I have read a lot, among other of Lorber.

Yet, it struck me that the time calculations of the foretold wars and disasters and the previous periods on earth are not so much clearly reflected in Lorber's work.

To a thorough study, one would possibly come to such an assertion, however, I wonder whether it is so in this case, or that you may have become aware of it from another source.

In any case, I am delighted that this is a more common site for people, who are unwilling or unable to focus on a thorough study of Lorber and other by the Spirit-inspired works.

P.s. I was a little too quick with asking questions and drawing conclusions since I have had read it shortly. **After further reading, I see that you have substantiated everything nicely and that you have referred to the Scripture from which you cite.** Over the years, I have read many works of Lorber and sometimes I lose the connection.

Nice site, that's for sure. Thank you.

Kind regards,

Dennes Koster

### **Answer**

Hallo Dennes,

Perhaps I may point you to the monthly publications of the **Jakob Lorber International Bulletin** [ JLIB ] which is published in three languages and has several hundred readers. I send you - of course free of charge - the May issue. You can also download this yourself, from now on, if you are interested. Fine, that you respond to the 'thoughts' of Lorber which he, of course, has not conceived himself and thought, but that he received this through his heart from the Lord. The beauty of this digital magazine is that from several countries, inspiring items come in -from which each can draw lessons. International also means: an union and experience with other "unified comrades" in the New Revelations. G.

### **Hans from the Netherlands**

Dear Gerard,

Thank you so much for your clear quotations and comments. Yes, indeed it is the spirit of Lucifer that is trying to seduce man, every time, to Act against the loving order of God. His spirit seduces us, can tempt us to wrong, false thoughts, words and

actions. His spirit is trying to tempt us, for example, to hate, wanting to be powerful, lustful seeking for pleasure, searching for material welfare, to judge and so on. But like us, I see Lucifer itself as a fallen spiritual being. In the core, he is no different than any other human being, a creature that once was one with God's love.

Warm regards, Hans.

## Answer

Best Hans,

Thanks for the reply. We are indeed tempted by Lucifer. In each spiritual being [except God himself] - the angels also - lurks in the background, in the hidden, the 'being seperated' and thereby also the wrong one.

**In this history is it clear that the 'wrong' not always descends of Lucifer.**

When Peter went with his brothers in the ship, he asked Jesus if they were allowed to visit their families for five days. Jesus replied: 'I have said to you already what you should do and therefore, go all !' After I had told them that, they soon boarded the ship and sailed away. I, however, remained here in Galilee. (John 7,09)

When all the brothers were already more than halfway over the water, they all were overcome by a great sadness and remorse, so that they wanted to turn around, to beg Me for forgiveness for the contemptible words with which they had approached Me.

**And Peter said loudly: "Lord, Lord, which devil has lead us astray this time, that we could have left You?"** O, let us find You again, for just this one time, You everlasting Son and Father in one person and we will never leave you again!"

John and Matthew cried and insisted heavily on returning, but a strong wind came up from precisely behind their backs and drove the ship with great speed to the upper shores behind Tiberias where the Jordan leaves the sea.

When they went ashore they felt so lost that they nearly did not have the courage to continue their journey to Jerusalem. But JAKOBUS said: "That we all have done greatly wrong, there is no doubt about it: for the strong wind which drove us so quickly here and arose precisely in that moment when we wanted to return, was a speaking example that He wanted to ban us for forever from Him. We stupid and blind oxen wanted to begin to prescribe to the most Wise and Almighty what He should do! O, we exceedingly wretched fools! **Where is the most wretched Satan who deceived us? The most wretched beast of all beasts should step before us** and he will get to know what it means to lay his hands on the friends of

the Lord!”

**Suddenly A LIGHT FIGURE appeared to them and said in a very serious voice to them: “Your accusations strike the lost son unjustly; for your own wantonness has done this to you. Therefore accuse yourself, you carrying the highest mercy and leave him alone, who this time, has no part in your stupidity!”**

Thereupon the figure disappeared and THE DISCIPLES said: “Lord, be lenient and mercifully to us sinners!” [GJE6-146 13-21]

- [Note: This is also the only place anyway, in which Jesus involves Lucifer positively!] -

**Hans writes: But like us, I see Lucifer itself as a fallen spiritual being. In the core, he is no different than any other human being, a creature that once was one with God's love.**

G.: The difference between Lucifer and we humans is from origin equal: we were, however, via Lucifer **his creatures** once and have ‘fallen’ with him. He stood above us humans and he stood as a second high spirit being under God. Because he has ‘fallen’, we went with him by free choice. The point is, that – although this theme is a crucial topic- it must be said exactly like it appears in the Bible.

That Lucifer precisely our people here on Earth ‘deceives’ to various kinds of sins, has to do with the fact that– **although we want to be children of God**- our soul origins decent from Lucifer. He does not want to lose us but he wants to ‘keep’ us and does everything possible to have the whole of humanity for himself. So, we are soul ‘creatures’ of Lucifer. However, he was not just a simple creature, such as we humans were. Our spirit is, however, from the lord.

There is, however, a big difference. And this Lucifer has his place of residence under the Earth. And his creatures – **which want to be children of God** [back to the actual divine father like once ‘lost!’] – that is why we may live above the Earth, from which we are originated [Adamah].

Jesus said to the Pharisees; you descend from your Creator ‘ Lucifer ’, more exactly expressed: ‘ you have Lucifer as your father! ’ [John 8:44]

## **Weather conditions in heaven**

In the spiritual world, there are, as in the natural world – in equal measure the same weather conditions. Only such climatic zones correspond to the mental state of the spirit. In this world there is absolutely nothing that is not also present in the other world, only they are different by their origin. In the natural world, the differences of the climate are depended on the distance of the Sun up to the equator, in the spiritual world they are depending on the accessibility of the sensations(willingness) of the will

and the thereby resulting thoughts of the spirit, to the true love and true faith. In the cold zones of the spiritual world appear such things as in cold zones of the natural world. Also in the spiritual world, there appear frozen areas of land and water and also with masses of snow over it. In that environment, come and live such people, who on Earth think their intellect with a certain inertia about spiritual things, have brought to sleep ... ## Swedenborg's Birthday

Was this on 29 January 1688 or on 8 February 1688?

By almost all biographers of Swedenborg, 29 January 1688 [Stockholm at 06.14 hours] is specified as his birthday. A reader from Enschede [Netherlands] wrote -the Swedenborgian quarterly magazine, 2nd volume – no. 4 of December 1993-, however, the following letter:

' ... It is almost certain that this date, at least according to our calendar, is not correct. Already In 1582, the **Julian calendar** was abolished in most countries of Western Europe because in the course of the centuries the error factor was increased up to 10 days. It was replaced by the **Gregorian calendar**, where 4 October 1582 was followed by 15 October 1582.

So 10 days were skipped in order to get back in line with the vernal (spring) equinox and also e.g. to set the right date for Easter. Several countries still have maintained the Julian calendar for a long time. Sweden introduced the Gregorian calendar on 1 March 1753, so , 65 years after the birth of Swedenborg when this calendar was all ready for more than 170 years, generally accepted in at least 14 countries in Western Europe.

When Swedenborg according to the Julian calendar was born in Stockholm on 29 January 1688, in the Netherlands, France, Germany, Italy, etc. so, it was **8 February 1688!** " [HdW]

## The religion of the Future

by Klaus Opitz

*'Our world is in a transitional period: Everything old shall pass away with its bad and rude forms. All States will renew itself and the **old church will turn in a new one**'.*  
(Gifts of Heaven 03\_49.03.05,05)

Jesus has given us, in the writings of the new revelations, many indications how **He** would like to have understood ' Church'.

**"A church is only a church, if they learn My will and preaches the life in the name of love, that on the Cross bled for the whole earth, yes for the whole of creation."** (Gifts from Heaven, part 1, the true Church, 01,01)

**There is only One true church on earth and this is the love for Me in My Son and is the Holy Spirit within you, manifesting through My living Word. And this Word is the Son and the Son is My love and is within Me and I permeate Him completely and we are one. Thus, I am within you, and **your soul, whose heart is My place of residence, is the sole true church on earth.** Only therein is eternal life, and it is the sole beatific....(Household of God.01\_004,09)**

**Only the church that I made in one's heart is the right one, forever safe from hell;** everything else was devised by the world, it belongs to her and is for eternal nothing to Me! (Gifts from Heaven.03\_47.05.25,11)

**Therefore, go first into the **true church** where there is life and only then into the dead church, that it may become alive through you.** (Household of God.01\_004,14)

Here it shouldn't go about the theme **Church** but only about what Jesus has revealed about the **religion of the future**. First to the definition, what does **religion** mean, at all?

**Religion is a reconnection of a human with God, who created him freely from Himself and who has placed himself outside the material world to testing and training development of the freedom that only concerns the life of the Spirit, because it is the Love as the primal reason of being.** (Gifts of Heaven .02\_44.05.21,01)

**Under the title "The people of the future", Jesus says in the eleventh part of the Great Gospel of John:**

**Like a very noble plant that existed slowly from a much less noble kind by diligently taking care of it and by cutting off all the wild shoots, this is also how the **people of the future** will grow, only by slowly taking care of them after first removing a lot of rampant wild seedlings. They will be one flock, led by only one Shepherd and that will be Me. [GGJ.11\_29,04]**

On the theme '**the Religion of the future**' Jesus reveals to us through Gottfried Mayerhofer the following (excerpt):

**The new religion, which has to come back on Earth, is and must be the love; therefore, preach 'love' everywhere, show all that love is the origin of all creation and that love, in the intellectual sense, continues after the grave. Yes, even more spiritual. And you will see that your biggest enemies and opponents can't resist you**

even more, if they will see that you are not only preaching love to others but **confirm it by deeds**.

**So will the religion of the future be:** people are improving, even the Animal Kingdom will be more peaceful towards you if you recognize them as men of this earth, as loving and not as greedy consuming!

**O my children, there was a time, when love on this earth still had the upper hand, where the Tiger and lion were attached to man; She was alone briefly, this time; The human passions darkened the mind and obscured also the spiritual view of man and he lost his spiritual power;** the below people standing animal kingdom, yes even the elements, were hostile against him and he, who I created to Lord of this small Globe became his servant and that he still is.

**To reach this 'Eden', this 'Paradise' again – for this, your life is too short. But to reach it again, this should become your purpose, your life work!**

Only if you want to reach this, you'll first have to start **with yourself (I)**, like I told you and then with the **material world** around you; Become **'People' first, moral, spiritual people;** lift you up **over the cesspool of sensuality and worldly interests**. Stand free! Call out with me: **'My Kingdom is not from this world!'...**

So far is certain, that from which I United in the **two love laws** at that time, as long as the world exist, **only the simplest, but adequate Religion-base will remain**, which I promise richly to those, who are living life together as sensible **spiritual** beings and that this can be **the only connection**, which chains beings with beings: "Because it's just the love that I as law once presented the Jews and, as you now know enough, that I have put in all the created, in all natures and because they descended from me, they should only have the main properties as essence inside them, which resembles their master, their father most." ...

'As long as the majority of the people **thinks material, lives material**, so long will the **material- symbolic Religion will be just adequate for them;** because they want to see visible evidence of what they (invisibly)do not understand. But once the majority of the people are also **spiritually** formed and thereby are able to look at the visible spiritual, then they will suspect something under the shell of the actual Core and later they will even acknowledge.

**From this soul-condition of the majority arise different religions and diverse sects.** Because sometimes a man [believer] or a priest stood up, who highlighted some, spoke in a different way and therefore gained adherents, founded a different separate religion which he and his followers according to their opinion liked the most.

In addition to the above, although sincere people sometimes search the true, stand instead the **materialists, nihilists** [the deniers] etc, who want to understand with their little human intellect, what goes beyond them and only accept that as really existing, what they can seize or weigh'...

**"The more Research on scientific areas stride forward, the sooner people will come to understand, not that they know something but that they **know nothing at all**. And this confession of powerlessness should lead them back there, from where they started, namely **to the faith**; But not to the unconditional, but to the **childlike faith** that, like the visible nature shows them everywhere, beyond and lies hidden in the same big spiritual Realm, which builds up matter, retains and does parish. **The alternately going from one phase to the other, according to the spiritual principle of its origin, where then after millions of metamorphic transformations, the matter grows gradually closer as with the butterfly, which as a pop falls off, rises up in to the spiritual element to the focus of all being from which she once emerged.****

As soon as such views become common among people, then also **a different religious view of the visible world will emerge; Worship will no longer be necessary, which gathers the people in stone houses which you called, 'Churches' or 'Temple', but free unlimited of nature, everything surrounding and visible, from the smallest atoms to the last star of the most distant nebula, will be your teacher which will lead the perceptive observers from the material into the spiritual.**

Then will My words, first **be totally** understood, that I once spoke and let the people preach in all centuries until today: **"Who wants to worship Me, must worship Me in spirit and in truth. Because I'm a Spirit and mentally praying means: feel how all lies hidden in God's spirit, to feel how he has put his love in everything, feel, how only with and through love from every world, every place and every worldly location can become a paradise. Feel that it is only love that contains everything and is the biggest asset of a human heart.**

When every man or animal, in accordance with its own origin, exercises his duties itself for the time being what concerns its own environment and thus, first precisely understand and sees through God's love which is included in the two love laws, namely the **entire visible and invisible creation; so that he can realize that love would not have arisen without real love and could have survived!**

Without **love**, it was not possible to tolerate all the long-suffering great horrors and errors on your earth, it would be inconceivable, that I, the highest Lord speak unto you stray children, as I just did so.

**Without love there is no trust, no confidentiality and no comfort.** Just the thought: **love can not punish**, is also the deep bow test, then a gentle warmth flows through his heart at such thought and if he learns to understand the whole nature, how everything breathes love, **where even among many contradictions only love still acts.** Then everyone will be aware of a religious confession, which will guide him in all cases and steers him **and needs no intercessor for his divine father** and who on Earth is his only next judge of his **own conscience**. Then, will the gentle, **always equal everlasting father bearing him in his mind and start a religion that will**

**establish itself as the only one who is preached by Me and followed by you, the religion of the future.**

When after all the sins of the human spirit, after all the bitter experiences that the people through their own behavior have pulled to themselves, then they will finally recognize **that it is in vain to resist the divine laws**. Laws, which are not iron **but must be soft love bonds** like they are between father and child, the only of eternal peace; **then will My return, on your Earth**, as the good ones expect with impatience, where **I as only Shepherd want to collect all my sheep to Me, will take place, where I then will lead them all to the intended goals**.

**This will be the religion of the future, not as one or another has hatched in his own head, but cosmopolitan, i.e. You people should all be citizens of the world: but not your world or just the little earth but under ' world ' means; the entire visible and invisible creation that belongs to you as living or dead and where in the other is always only the continuation of the present that leads you forwards from phase to a really spiritual Cult religion. Where instead of thousand thoughtless spoken words, one look in my universe will be sufficient in order to make you understand what I am and what you can and should!**

**... The religion of the future can never be spoken in a cult: for every ceremony, any other visible means of performance is too little, too small and gives the up striving spirit of man a weak image, a weak idea of its creator. The religion of the future needs a larger measure standard. They must understand and learn to understand all created things, she must, as I said above, close everything inside them. From the last star to the smallest Atom. This church – called Universe – should be an altar and a worship Center from which millions of creatures express, every second, the joy of her existence as a prayer from the heart that flows out and will never end as long as a spiritual development is possible.**

***Too small* are all your **churches and cathedrals**. Your mentioned buildings can still be so many symbolic depictions, however, they are not sufficient. Where the understanding of my nature and where no, so-called **gathering places** are needed to rebuke the people to spiritual research about his world's behavior.**

**Man must stand in free nature towards his Creator**, recognize and feel Him in everything. He must be aware of both his decent and his spiritual mission. And it should be bright and clear to him which citizen of the world he is. **Then all the barriers of the unilateral religion and religion practices will drop from him**, which only the people have invented and that benefits from the blind faith of other people's stupidity.

The people I created as **Lord of the world**, as a Lord man must feel; as Lord he must also act; keep in mind the son ship and the eternal love that man, not just with mental equipped properties received, but he left this graceful gift to man, to be a free

Lord of his actions. But still a **bound essence of his conscience** that never will speak otherwise than according to the Love laws.

**So must man carry the religion in the heart**, which offered again by the inner of his own self as far beyond the visible of the outside world, lead to the result of everything, which once, in human form has preached the great **laws of love** and wanted through this raise the people and the people after them as His children.

**This general effort, to live life to these laws is everywhere to be seen and thus is striding further and further up to the big end goal, this is the religion of the future; Not only the religion of this little earth but of the entire universe and the great spiritual world.**

Consider this, not to a limited extent but spacious, as **I breathed the spark of the divine in man.** Greats, how I made man thereby a world citizen of my empire where no eternal Sun goes down but always the spiritual of my own self (I) will enlighten all, whose spiritual eyes, records rays ( will see)and once brought, Amen '.

## Jesus was not older than 33 years en three months when He left His body!

In both Gifts of Heaven, the explanations of the scriptures, Sermons of the Lord, youth of Jesus and especially in the Great Gospel of John, it is **irrefutable** represented how Jesus, two thousand years ago, has taught his people and pupils **only for three full years** on this earth.

To one of the friends of the circle of Lorber, the Lord said, **'Is has to be clear to you that in the course of thirty-three years, I certainly have spoken more than what is stated here in the four Gospels!'** [Heavenly Gifts 2-44-07-06-01]

Jesus ' testimony to Wilhelmine Hüttenbrenner about his work as a Carpenter that he has practiced daily his hand to work **in his thirty-third years** to earn his daily bread. His hands were rough and covered with a lot of blisters(scars) from work. Generally, Jesus was economical with words [no nonsense] and every now and then he was fairly cordial for the common people but never elegant. [Gifts of Heaven. 02\_44.07.06, 01].

And in the Gospel of Luke 3:23 is written: **'And Jesus himself, when he began to teach, was about thirty years of age**, being the son (as was supposed) of Joseph.' [Note: It is possible, that Jesus already had started a month earlier].

Several times, the ' Scripture explanations ' described statements **that Jesus was about thirty years old**, when he started with his post. **How could he be about thirty years old**, He who was eternal?

**He was about thirty years old** when he started whit His teaching. How? As God or as a human being? - Through the sub clause: "And you kept him for the biological son of Joseph the carpenter," is sufficiently testified that he, at barely thirty years, 'not as God but only as a human being begun his teaching career; because the God in Him relates to the **barely thirty years old** son of the carpenter as how man relates to his inner Spirit.

**This 'he' is the Lord himself, who from all eternity was the same Lord and will be! But how can it be that he was about thirty years old, he, who was forever?** The eternal created Himself for the first and last as a human being. As human, He also had to take into account the time which he had created from eternity. [Scripture explanations 1-8:6-9 and 15]

This barely thirty year old son of the carpenter Joseph, started his preaching post completely as a human being and not at all as God. The deity came into him only on occasions by his acting as he as man by his deeds made the deity afloat free; but without deeds the deity did not came forward...[Scripture expanations.01\_008,06-9 and 15]

From this testimony it is clear that from the outside was not to see much to be seen of the deity in this **hardly thirty years old** ' Carpenter; because otherwise, one had still another testimony about him. [Scripture explanations, Chapter 8 verse 12]

The in all its fullness slumbering divinity in him, raised up more and more and he always made it up to the extent and degree of its acts, as his duty. And when he, as I said, barely reached the thirtieth year, the deity awakened in him to such level that he by the spirit of wisdom obtained such exalted power, that he could start his preaching to which he was called. [*Scripture explanations chapter 8 verse 15*]

[Note this: here it is confirmed so many times that Jesus was barely 30 years old!] [We could infer from this, that he probably started a month earlier with his mission with almost 30 years!]

You must also bear in mind that I did not have before Me a human life span as other people had, but only thirty-three fleeting years during which, until My thirtieth year, My earthly man matured for the great feat, and then there remained only three years for the laying of the foundation stone for the supreme, everlasting, great spiritual teaching, without which the spirit world and indirectly also the material world could not have continued to exist. Lord's Sermons: chapter 7:5]

The longing that has now taken hold of many minds and aims at a religious cult more in line with the present time and the education of today's Christians is the transition to the ultimate, spiritual supreme cult for which a way is being paved through My direct communications conveyed to you for over thirty years.[The Lord's sermons, chapter 17:8]

[Note: it follows directly that Jesus, three full years and possible also a few months practiced this his teaching as Messiah].

In the Childhood of Jesus are some text parts: **I lived in that well known time up to My thirtieth year just like any other properly** raised boy, young man or man; and first I had also to awaken the Deity within Me - just as every man must awaken Me within himself - by conforming My earthly way of life to the Law of Moses. [childhood of Jesus 1:1]

Note: Again, we have to remember in connection with this text, that Jesus may have started slightly earlier before its thirtieth year! Other texts speak against this!

Since then, Jesus withdrew completely and did not perform miracles for the people **until his thirtieth year**. He lived and worked like everyone other man. **Just how did the Lord Jesus live from His twelfth to His thirtieth-year?** [Childhood of Jesus 1:1 en 298:26 en 300:1]

In the booklet: 'Tree days in the Temple' – Chapter 32:16 stands: "It is known that I allowed little more to be remarked of My Divinity until My 30th year,

And thus the only right and true account of the Three Days in the Temple is concluded...

[Note: If someone has become 30 years, then he is in fact already beginning his 31st year!]

**The Great Gospel of John emphasizes several times in several places, that Jesus started with about 30 years. There can be no misunderstanding about this. But Christ came to earth quite poor, insignificant apparently weak, did not work any sign before the eyes of the prominent for almost 30 years.** He worked hard as a carpenter with Joseph and frequented the company of the lower classes. [GGJ 1.5.15]. And at another place: "Behold, **I have already been in this world for 30 years** and have never yet touched a woman, why should I now suddenly desire you?" [GGJ-1-26-6]

[Note: Jesus said this to a woman at the water source of the forefather Jacob! -John 4 in the Gospel of John by Jakob Lorber]

Dear Gerard,

Maybe it's an idea to include this following piece in your bulletin? It comes from the website: [www.levenhart.nl](http://www.levenhart.nl). It was posted yesterday. It is very clear and interesting and also in the present world situation.

Warm regards, Hans

### Answer

Hallo Hans,

I would like to post this quote.

## QUOTE: **Religion in relation to the present world situation**

Each animal and each plant represent something from the spiritual in man. How anyone thinks, believes, wants, is, does, and so on. And then not by one, but by all people. The temptation is the snake. In reality, it is what man deviating from pursuing love wants, believes, does, and so on, which tempts him. And material is the snake just an animal that stands for temptation, as a reflection for the spiritual temptation that is present in every person and is actually his own temptation caused by desires and wants, needs and pleasures, which are different from what love really is.

Satan is the name for that temptation in every person. As soon as someone acts completely to love, there is no Satan anymore. But beware, because he is coming back as long as there is still hidden in a man a possibility of straying from love, as long as man has not been fully and completely voluntarily perfect love itself is yet, is that temptation, called Satan, there. And in that way he is as intelligent as man originating in me, only changes that intelligence of that man from cunning and smart in to deceptive. In order to defeat Satan, it is necessary that man defeats himself and defeats its own wishes and desires, defeats his own I and that is a strange fight in the human. Because man is very intelligent and ingenious when it comes to what he wants, what he desires, what he thinks he needs to have and he knows himself to his own from love aberrant behavior.

As long as the man in any way is not from true real selfless love, he stays as Satan, the seducer, to do whatever he wants. Know that the more someone pursues the good, the true and the true love, the more the Satan stirs in him. Because the power issue is for every human being the most difficult and Satan will always want to hold very violently that power and defend himself by all means. He comes up where it goes well. But make no mistake, because that is the best thing that can happen to a man, because thereby nothing remains hidden in the soul, what can stand in the way to the access to heaven. Even the tiniest bit of staying is lifted up and just that little bit is difficult to ban, that is precisely why it is therefore more violent.

Yes, Satan in the man stirs itself because it is time that all deep hidden in many people, and that my love in you all, defeats Satan. And that is only possible together with you. Because to you is given the freedom of choice and with it the freedom to Satan.

Bound in the matter, you can all come to true love and defeat Satan, by me Jesus Christ, your God and creator. Because I have you saved from the eternal straying in the darkness. I am the light. Who follows my light, comes to the true love. The father and the son are One, the true way to love, God and creator, the Light of love, the son, follow that and you defeat Satan with me, which in reality is nothing then your own wants and desires, your own life of truth and love. How little your strayings are, the more bigger grows that little bit of power in you.

So it is now in the world, the power of Satan joins itself to blow up to enormous size. And see, that's literally what people do. It sows unrest and bewilderment. But I'm there and believe me, My love and wisdom takes care of all the people, how big Satan occurs, in the reality of life he is nothing. Stay on me, on my love and trust, trust my true love and wisdom, because Satan is blown up nothing, what passes. Don't get discouraged by all that happens on Earth now, hold on to me and trust that everything happens, Is in my love the best for all people. Source: [www.levenhart.nl](http://www.levenhart.nl)

**Note G:** The source is [www.levendhart.nl](http://www.levendhart.nl) – But from whence is it source? On this Web site is not once mentioned the source, or a reference to the big John's Gospel, or what further has a relationship to the Bible. However, this seems very important to me!!! Are the described texts maybe from Bertha Dudde or Mayerhofer? In the Lorber and the Leopold Engel-literature, I could not find anything about it. Therefore, something from the Sacred revelations!

The main error of the soul -actually coming from the whisperings of Satan-is: as soon as it goes better with her, she blames herself. -not repentant,- but that she has been frightened and driven back by pain. If she had endured the pain, she would have become one with Satan's power and the magnificence of the Lord would have come to an end. Through these delusions, the soul usually returns with even greater wickedness. In lower Hell, there really exist those that will not give up these delusions for a continuous, ever-increasing torment and pain and find, in a way, a triumph in this, when they resist the Lord even in the greatest torment. Their obstinacy is so great that even the full force of the fire of wrath will not make them turn back. But in days to come, **after their spirit has been taken away**, they will have once, with its center, make the journey into eternal destruction, what will really be no big loss; because I can raise better children to Abraham from stones! [Earth and Moon.01\_058,18]

[...] However, it is the world who made them blind, and this belongs to Satan whom you have got to know. [...] [GJE-2-164-4]

Mercy has, to the human heart,  
Grown to the best taken start.

Compassion in human face,  
residing in a wonderful state.

Love, in divine human form,  
came to heavenly reform.

Peace, as in human cloth,  
man seems to be completely complete again.

God appears and he is light,  
Man is forever out of focus.

Poor souls still wander in night,  
charged with terrestrial loaded load.

But they demonstrate a human form,

the realm of the day,  
May stay in and never want to get left behind again!

## Spiritual leaders

There are good spirits and evil spirits with every individual. We have our union with heaven through the good spirits and our union with hell through the evil ones. These spirits live in the world of spirits, which is midway between heaven and hell and will be specifically treated later. When these spirits come to us, they urge into our whole memory and from there into all our thoughts—the evil spirits into the evil things of our memory and thoughts. But the good spirits, into the good matters of memory and thoughts. These spirits are totally unaware that they are with us. Rather, as long as they are with him, they believe that all these matters of our memory and thought are actually theirs. [Heaven and Hel-292- Swedenborg]

## Angels and their residences

Swedenborg describes the State of angels in heaven. The angels live there in common residences, similar as the human residences on the Earth but much more perfect in their form. The Swedish visionary Swedenborg visited there (on the other side) : ' cities with streets, alleys and courtyards. The angels live there in ' Houses' as well as housing on Earth which we call houses; only are they much more beautiful. There you find beautiful halls, rooms and bedrooms in great numbers. They have yards with surrounding gardens, forests and fields. The environment in which angels are is a reflection of their inner State and the degree of their mental development. This theme is very interesting. The angels, who live in the lowest level of natural heaven are at ' places' that are looking like rocks '. The angels that live in the Mid heaven of the spiritual heaven residing on ' places' which seems like hills'. The angels at the highest level (at the top)of Heavenly Heaven are located on ' places which resemble the mountains of the Earth '. [Source: about life after death – page 49 – Swedenborg]

## Abstain from all appearance of Evil

Abstain from all appearance of Evil; the Spirit test all things, retain the good. These biblical proclamation has been around for a long time. Also Jakob Lorber [1840] describes this at many places in the great history of salvation. No man can neglect to ignore this. Jakob Boehme and Emanuel Swedenborg were the pre-prophets, but the greatest of all Christian prophets was surpassed (by far) by Jakob Lorber. Our Lord Jesus has placed in every human being, ' atheist or believer ',the primal spark of himself in everyone's heart ... so, No man can say later on, in the Spiritual Realm : 'I have not known this!'

## Characteristics

Hildegard von Bingen writes about the characteristics of such people, those who are born at WANING MOON and at a swirling air- atmosphere. These people can be Moody, they eat and drink moderately and can be depressed often. Thereby wilts their life as pierced with small holes, as with cheese.

However , they , who are born at full moon and also at a tempered air, are often health. Although they eat greedily. By means of an astronomical program you can figure out your moon phase at the time of your birth!

### Is homeopathy described in the Bible?

**Wilhelm from Germany**

Hi Gerard,

Many thanks for the bulletin.

About homeopathy, the Lord has given a good explanation through Gottfried Mayerhofer.

With the straying of these roads, arose some characteristics which threatened the healthy life of man.

14. The further the people differed from the Primal Laws, the less, the simplest, most natural means to heal their lost health, helped them, the stronger acting they had to find them because the simple were not longer sufficient.

15. **So the people sank down, shortened their life and increased their suffering.** Therewith was gradually established, what in earlier times each with nature connected man knew of himself, now to science of individuals, who are wholly dedicated to the medicine.

16. The first and easiest healing method involves searching in the food what cures people. Because mostly people became ill by excessive use of food and drinks, they were looking for the same corresponding medicine in food .

17. Thus rose the '**medicine of matter**, nowadays called '**allopathy**'

18. **The Material** makes people ill, **the material** should make them healthy again. Because the people themselves had become material, corresponded (in that condition) these healing method the best with the organism of the material body, generally by the correct understanding of the essence of individual herbs etc. the matter of the body was restored again just as long until the people ruined themselves again. So is also nowadays these healing method is most widespread, and it is the method, which doctors and patients, for the moment (!), helps the easiest.

19. The more humanity sinks down into the material, the more complicated their used to be so simple way of life became , the less they use the former mentioned medicines, to reestablish a by dysfunction dejected organism. Therefore, Man resorted to poisons ; which now had to replace what the soft, balsamic herbs as mild, innocent means, could not do anymore.

20. If now, by the allopathic treatment so many people die, and if curing one disease, ten others are brought into the body of the suffering-diseases, - that must come

forward again , at the time -it is of course, that the lifespan of the human race decreases still further and the descendants of the weakened elderly becoming sicker.

21. In the middle of this material decay ,some men stood up, that had discovered another cure that acts, not on the physical organism but on the soul. By a higher potency, the souls power, the balance in the organism of the material body must be restored.

22. This ' souls medicine ' was known and widespread under the name **'Homeopathy'** [souls medicine!]. The soul works to her healing with precise the same resources, in a very low dose, which in a large dose causes the disease .What causes this effect? Because nothing in God's nature is harmful in itself, but the cause of the useful or harmful working only lies in the way how it is given.(used) In the quantity [amount/doses] and quality [the essence] is the base, whereby using the same sources can be useful or harmful.

23. See, water is certainly not harmful, used in the fair amount and applied in abundance it brings you death and so many.

24. At the medicines of the homeopathy does not the material(resource) work but only the spiritual of the matter. This has a lot of resemblances with those substances, from which the soul of man and also of the animal is composed. And if, in case of illness, the one or other substance is missing, then homeopathically ( substantial;) supplements what the soul is missing and through the power of it, is also the disorder of the body restored. If the healers of the matter (the allopathic doctors) had any attention for this, they could certain easily discover from homeopathic remedies, **what** with their material treatment method is for the human organism, is not healing but harmful! But unfortunately these ' doctors ' are so envious and inaccessible for any defense, that even my own rebuke can't take them to a better position. By homeopathy, the soul gets back her strength. She fills the missing and works there on soul level, where the allopath is trying to achieve its goal material.

25. The working and the time in which one and another is possible, as well with the after effects of a particular case of disease, in which signals are given according to which a one or other method is preferable.

26 Every man follows his own conviction and let him thereby precisely informed whether he is more matter or more spirit! Next to Homeopathy is the Heliopathy or Sun-remedy' the closest to homeopathy. The Sun treatment is a way to repair, through the sunlight, the disturbed relations of the human organism, either in material bonded form or by the direct influence of light on the sufferer. [see also Bach flower remedies according to Bach and Lorber: [http://www.e-wi.info/pdf/Buch\\_24.pdf](http://www.e-wi.info/pdf/Buch_24.pdf)

27. This way of healing, I have let you describe more exactly [Sun Remedy by Jakob Lorber] and you know the true reason partly as well as its functioning. What I want to

say is, that for everyone, who know nothing yet of these method of healing, might be cured.

28. The Sun is the carrier, its light is the preserver of all life. Without sunlight and the Sun's heat, would neither the Earth nor any other planet orbiting around our central Sun exist. As preserver of the whole system, the Sun must also contain everything what is needed for the further existence. And because preserving means the same as the Lawful order in the whole, the Sun also be a stabilizer for the incorrect conditions, because all its subordinate celestial bodies with all their creatures only within God's order can survive. as supreme law.

29. **Thus the Sun has also the strength and the ability to balance** any dysfunctions, and where is a deficiency , supplements the missing. That's why **the Sun remedy is the easiest way and also the most effective method** because she, just like homeopathy with simple, spiritual elements of creation, gives back again to the soul, what it had lost by aberrations.

30. The thousands of allopathic medicines are in the homeopathy (in terms of number and in terms of an amount of substance) noticeably reduced. The heliopathy reduces them to much less resources, what is proof, that the great cosmic system is based on just a few major constitutions. The more spiritual man becomes again and approaches the Kingdom, where he came from, in terms of being, the less resources he needs to restore his disrupted organism again, in such a way that his soul, in a healthy body can climb still further up to praise and thank for his creator.

31. Next to the Sun Remedy comes, in terms of meaning, the water therapy or **Hydrotherapy**. As healing method as the Sun Remedy works with light, the water Remedy works with compacted light or dense atmosphere healing on the sick body, mainly through the surface of the body on the internal organization.

32. What the Sun Remedy performs with cosmic ether or with the sunlight, does the water Remedy with the elements of the Earth -soul. Which -as mother of all created things on Earth- in the water, still possesses the same creation and barings power as before, when from the womb of the water all the Mainland originated, that to this day is maintained and fed by this mother.

33. Humans, **you are children of the Earth**. And therefore the Earth and all beings thereon and everything what surrounds it has a material influence on our existence. It can also act on a man, therefore, the power of the water over all organs of the body. Since even the human body belongs for three quarters to the water .

34. Therefore, the spiritual creating of this element has through the skin a powerful influence on the internal organization. Water brings you internally and externally to life and the influence of water makes you sound, to get a healthy body for your soul in her earthly existence.

35. While at the medical Remedy of the Sun, the substances already are brought together to a few resources, the water remedy contains just one, that in many cases have a particularly beneficial effect on wellbeing (medicinal baths, thermal baths), but even in General they mustn't be overlooked.

36. The more or less good effects and the length of time, within which, the so far described healing methods, one can fight a disease as well as the after effects of a disease, are the only features that determine to which method should be given preference. At the same time, the man has -by its choice for a method of treatment on the basis of his own conviction- the proof, if he tends more to the matter or to the spirit.

37. We will now go to a more finer and higher standing nature-healing method, that in the end will show you that, where everything is United [and all conditions are fore filled], it will never do damage and only can do good things.

The whole Father word can be found under:

[http://www.e-wi.info/pdf/Buch\\_52.1.pdf](http://www.e-wi.info/pdf/Buch_52.1.pdf)

Scientifically, homeopathy is based on a Law of nature: If a liquid dilutes, enlarges the information carriers in the liquid. If one takes the enlarged information carriers by using a homeopathic remedy, then the information arrives in the psyche [soul] and the physical illness changes, when certain conditions are taken into account, in the original mental illness again.

Also the homoeopathy "cures" that way.

In society we know, that all diseases are based on ignorance. The ignorance is shown in the psyche and turns into a physical illness when the psyche is overloaded. More can be found under: [http://www.e-wi.info/pdf/Buch\\_25.1-Buch\\_25.2.pdf](http://www.e-wi.info/pdf/Buch_25.1-Buch_25.2.pdf)

## Answer

Dear Wilhelm, thanks for your interesting reply, that can be read completely in the book of Gottfried Mayerhofer – part 1 of "Spiritual Anatomy" – lead: **Natural and spiritual healing methods** - WdG.

The question that was asked in the previous bulletin was: **'Is homeopathy described in the Bible?'** I am glad, that you have responded. Both via Jakob Lorber and Mayerhofer, we find here and there, clues about this unique and vital theme. But to find some Bible texts about this, that will not be so easy. First, one needs to know

the **ancient principal** of homeopathy [as defined by you, as above!] Is one once '**in-form-ed**', at the same time, ' the law of analogy ' takes place. It by this way of thinking – thinking in similarities [what we see a lot at Swedenborg!] you can – said it with some investigation – yet, easy to find back with Moses and Aaron. The now following, you might consider as a ' Biblical clarification '. G.

## Is homeopathy described in the Bible?

**Exodes 32:20** 'And he took the calf which they had made, and burnt it in the fire, and ground it to powder, and scattered it over the surface of the water, and he let the children (sons) of Israel drink of it'.

**Deut.9: 21** 'Also I took that sinful thing of yours, the calf you had made, and burned it in the fire. Then I crushed it and ground it to powder as fine as dust and threw the dust into a stream that flowed down the mountain'.

1. וַיִּקַּח	124	and he took	10. אֲשֶׁר	501	to
2. אֶת	401	it	11. דָּק	104	powder
3. הַעֲגֹל	108	that calf	12. וַיִּזֶר	223	and he scattered it
4. אֲשֶׁר	501	that	13. עַל	100	on the
5. עָשׂוּ	376	they had made	14. פְּנֵי	140	surface [10x14]
6. וַיִּשְׂרֹף	596	en hij verbrandde het	15. הַמַּיִם	095	of the water
7. בְּאֵשׁ	303	in the fire	16. וַיִּשְׁק	416	and he let drink
8. וַיִּטְחַן	083	and he ground	17. אֶת	401	the
9. עַד	074	that	18. בְּנֵי	062	sons of
			19. יִשְׂרָאֵל	541	Israel

added: 5149 = 19

The Hebrew Bible was taken and the 19 words in the above text were read. It follows that **the gold of the calf was evaporated by the fire. The gold of its own people**

**14** means the Gold – nowhere in the Bible – also not in Hebrew – is literally

' the golden calf ' described, only one can trace this from the previous words!

Gold = זָהָב = ZaHaB = 7-5-2 = **14**

Here the Scripture shows [in Hebrew!] not just the word for gold but strikingly hidden in the total addition. Because exactly at the 14th Word, the main theme is involved.

The summation of the total text is 5**14**9 and has a specific meaning. There is no further attention given to this because it would take us to far of the whole context.

There is, however, a note: Each Hebrew letter has a numerical value. For example: Adam, the first man, from which arose the people Israel. The word consist of: Vapor= AD = 1-4, blood = DaM = 1-40; with the total as a human being = ADaM = 1-4-40, from the clay-earth arose ADaMaH = 1-4-40-5.

Exactly at two places [in red] in the total 19 words, it is about the GOLD WATER that had to be drunk. This is no coincidence! And is an example for a natural form of **homeopathy**. G

## About the end of the Earth and the Universe

Swedenborg makes it credible, that it has no use to speculate about a future collapse of the universe or on a human extinction. The universe and humanity will always exist.

The evangelist Paul writes in his second letter to the Corinthians [12:1 – 4] about a man in Christ, who was raised up to the third heaven. He did not know, if this happened both in or outside the body, but he did know that he heard, lifted up to the most high heaven, unspeakable words, which a man should not speak. He has spoken of as the scribe, who has become a disciple of the kingdom of heaven is like a owner of a house, who brings out of his storeroom new treasures as well as old." [Matthew. 13:51]

How easy is it to Jehovah, God to destroy the entire human race and all life on the Earth in one moment, with fire-and infernal pains;

Because there are evil spirits that are very close to the natural man and stir up his life, and as soon the power is given him this opportunity is given, they torture the man directly with a particular spiritual fire and he dies; and he also perishes in one moment, as God, the Messiah by his mercy, not all and separate things according to the Divine rules can hold together. That this is so true, I can confirm, so sure that this must be expressed with most emphasis, because I have perceived this so many times with such lively experience, that there is no doubt about that; This is the terror, the fire with which should make the earth pass away, if it's not coming to senses; also, that the seas roars, the Sun and the moon will lose their light gleams. ### **To think about:**

'As soon as someone shuns evil things like sin, first then, the Lord Jesus flows from heaven to open his spiritual mind and lead him into heaven'. [Source: The teachings of life-86-Swedenborg]

'Sometimes Angels are sent to those in the low Earth [hell] in order to comfort them'. [Secrets of Heaven -4943-Swedenborg]

'After the death of the body, all are standing up to the spirit, usually after three days, after the heart has stopped beating'. [True Christianity-281-Swedenborg]

## **Swedenborg once threatened**

There is a history on Swedenborg, that a young man came to his stay with the purpose to commit an attack on him. As the housekeeper told him, that her master was not at home, the young man did not want to believe her and rushed in the garden, to find Swedenborg.

But God foresaw this and used resources to protect Swedenborg. When the young man hurried to the garden, his cloak remained hanging from a nail of a lock of the gate, so that he could free himself. His hidden sword fell to the ground. In this confusion, fear to be discovered struck him and he retreated in all hurry. [Source: Swedenborg Epos – chapter 41]

## Miracles at Jakob Lorber

Lorber also experienced some miracles. Someone gave him a few cuffs on the ear and shortly thereafter, the little 'criminal' had an accident and lost his right hand, with which he had hit Lorber.

Another person wanted to report Lorber as 'Prophet of this accident,' to the police. But along the way, the 'reporter', as struck by the fate, had a stroke.

Lorber had no more firewood in winter. He prayed, 'Lord, when you want, that I write your word', please care for wood. In this cold I cannot write! Short thereafter, a farmer delivered firewood without saying a word.
